# AOP Awards 2016 on Tour pack

The Association of Photographers was first formed in 1968 and is one of the most prestigious professional photographers' associations in the world. Our members' work is published worldwide in magazines, newspapers, books and advertising campaigns. The Association is renowned for promoting photographers' rights, copyright protection and business best practice.

## On Tour Exhibition

"We are very proud to present here for the first time together the Photography and Open category finalists and winners, alongside those of this year's Student Awards.

Once again we had a powerful line up of awards curators selected for their in-depth knowledge, insight and experience within the industry. We thank them for their analysis and opinion in what must have been a very difficult decision making process, looking at the strength of the entries this year.

Finally I would like to thank everyone who entered this year's Awards, and congratulate our finalists and especially our winners."

**James Vellacott**  
Chair, AOP

There are a lot of photography competitions out there for professionals but the AOP Awards continues to be regarded as the original and the best – a celebration of exceptional work by the industry's elite. Being selected for entry into the Book and accompanying exhibition is one of the highest accolades available to professional photographers around the world.

† The AOP provides extensive information, advice and guidance to photographers regarding their rights, issues around copyright protection and best practice. Our experts deliver talks and lectures across the UK at leading education establishments as well as photography related events. The addition of an AOP Business and Legal seminar will provide additional attraction to your exhibition.

\*additional cost

\*Insurance responsibility of hirer
